DETAILED ACTION

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The specification recites the elements "fixing member" and "moving manipulate member", these elements are no longer in the claims and "holder" and "carrier" are not defined in the claims and cannot reasonably be interpreted as "fixing member" "movable manipulate member" if the specification provides no definition for "carrier" and "holder".

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the holder and carrier must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement-drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate

changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

3. Claims 1-7 are objected to because of the following informalities: Applicant does not define or show what "holder" or "carrier" is in the specification or in the drawings.

Appropriate correction is required.

Allowable Subject Matter

- 4. Claims 1-7 are allowed.
- 5. The following is a statement of reasons for the indication of allowable subject matter: The prior art cited of record does not teach the limitation of a "holder" or "fixing member" and a "moving manipulate member" or "carrier", the "moving manipulate member" or "carrier" being connected to and translatable along the "fixing member" or "holder".

Conclusion

6. This application is in condition for allowance except for the following formal matters:

See above.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.
